## Jesse Oliver Chairman 2021 Redistricting Commission

# Redistricting Overview

- Upon the release of the 2020 census, governing boards of local government bodies, including city councils, should review population changes to determine if districts are imbalanced and must be redrawn.
- Out-of-balance electoral districts may require the local government to rebalance the population among the districts.
- The districts shall be substantially equal in population according to the total population count as presented in the census data, except where **deviation** is required to comply with federal law or is allowable by law.

# Redistricting Overview (cont.)

- There shall be no discrimination on the basis of race, color, or membership in a language minority group, and the voting strength of racial, ethnic, and language minorities in the districts shall not be diluted to deprive minority voters of an equal opportunity to elect a candidate of their choice.
- The districts shall be geographically compact, to the extent possible, and composed of **contiguous** territory

# Redistricting Overview (cont.)

- The reconfiguration of districts shall be neutral as to incumbents or potential candidates.
- Communities of interest shall be placed in a single district and attempts should be made to avoid splitting neighborhoods, where possible without violating the other requirements.
- The redistricting commission may adopt any other requirements of federal or state law.

# Redistricting Overview (cont.)

- Redistricting is governed by federal, state and local law.
- As it relates to federal law, cities remain subject to the nondiscrimination requirements of Section 2 of the Voting Rights Act.
- Section 5 Preclearance is no longer applicable.
